Dear Service Provider,

Re: Guidelines for Submission of Applications for Licensing (“Guidelines”)

The attached Guidelines are a revision of the “Licensing Process” guidelines posted on the Commission’s website on 24 July 2008.

The Guidelines provide more comprehensive guidance to applicants to assist them to meet the Commission’s licensing requirements. The Guidelines also are intended to increase the efficiency of our procedures while providing a more cost effective process for applicants. In particular, the Commission

- is encouraging electronic submission of applications and follow up correspondence, which should not only speed processing times but also eliminate courier costs; and
- no longer requires the filing of reference letters, other than a bank reference.

Yours sincerely,

PP
